PROPERTY DESCRIPTION

Pringle Rothell Farm encompasses 141.429 acres of productive hunting, grazing, and agricultural land located just three miles southeast of Olney, Texas, in Young County. This versatile property offers a desirable combination of cultivated acreage, native and improved grass pastures, mature wooded cover, and dependable water, making it well-suited for a variety of agricultural, recreational, and residential uses.

Terrain on the property consists of open fields and productive pasture, with a large wooded draw running through the center. Approximately 85 acres are currently under cultivation, and the farm has historically been utilized for wheat production and cattle operations. The balance of the acreage consists of native and improved grasses, providing excellent grazing opportunities and flexibility for future agricultural use.

Water is a standout feature of Pringle Rothell Farm. A nearly one-acre pond is located along the eastern portion of the property and provides a dependable water source for both livestock and wildlife, and is notably drought-resistant, with the owners reporting they cannot recall a time it has gone dry, even during extended droughts. Adding further value, the property includes a productive water well located adjacent to the pond, an uncommon feature in this area of Young County, where underground water is not typically abundant. Water well depth is believed to be approximately 280 feet deep, although the exact depth is unknown. West of the pond, a seasonal waterway winds through a heavily wooded draw, providing additional wildlife habitat and recreational appeal. The existing waterway also presents opportunities for additional surface-water development.

Pringle Rothell Farm is enclosed by good-quality barbed wire perimeter fencing, with interior cross-fencing providing practical separation for livestock and grazing management. A combination of cultivated ground, improved and native grasses, wooded cover, fencing, and reliable water creates a highly functional farm and ranch property.

-- IMPROVEMENTS --

- Utilities ~ Water well and Fort Belknap Electric Co-op
- Road System ~ Dirt entry and main road, ATV roads
- Fencing ~ Great exterior fencing, good interior fencing
- Entryway ~ Pipe gate entry
