Permit Conditions

Well shall be constructed in compliance with all NCAC 2C Rules.
Maintain minimum setbacks as applicable.
Shared well requires the 100' setback from septic and repair areas as shown.

Diagram (Not to Scale)

This permit is valid for a period of five years except that it may be revoked at any time if it is determined that there has been a material change in any fact or circumstance upon which the permit is issued. Well location, installation, and protection must meet state regulations. The well shall be inspected and approved by Macon County Public Health before it is put into use. The location of the well indicated by MCPH is to provide protection from possible sources of contamination. Flow volume (well yield) is NOT guaranteed at any site by MCPH.

A WELLHEAD COMPLETION INSPECTION MUST BE APPROVED BEFORE FINAL POWER IS GRANTED OR THE WELL IS PLACED INTO SERVICE. PLEASE SCHEDULE A WELLHEAD INSPECTION AFTER PUMP INSTALLATION. **QUESTIONS? (828) 349-2490**
