

# WHAT WE LOVE ABOUT OUR PROPERTY

DATE: May 20, 2025

- The kitchen, family room, and deck are perfect for entertaining with an easy indoor outdoor flow.
- The master bath heated floors got me through several nights during my pregnancy.
- We enjoyed curling up by the fireplace for movie night with the girls.
- The land, sis and I spent quite a few afternoons picking gooseberries and blackberry while "exploring".
- We enjoyed watching wildlife from the kitchen windows.
- We enjoyed being in the woods but still within a close distance to California or Jeff if we needed something.
- The neighborhood has always been amazing with welcoming neighbors.
