RASCOB ROAD RETREAT

MOORE COUNTY, NC

62.66+/- ACRES

$469,950

PROPERTY DESCRIPTION

Located just north of Carthage in Moore County, North Carolina, Rascob Road Retreat offers approximately 62.66 ± acres of highly productive timberland, scenic creek frontage, and exceptional recreational opportunities. The property features approximately 50 acres of mature, professionally managed loblolly pine plantation, natural hardwood forests, and one-half mile of frontage along Rascob Road. Its desirable location provides rural privacy with convenient access to Carthage, Pinehurst, Southern Pines, and Sanford.

One of the property's most valuable attributes is its 33-year-old loblolly pine plantation, which has benefited from intensive forest management practices, including commercial thinning, competing vegetation control, and fertilization. These practices have promoted vigorous growth and improved timber quality, resulting in a substantial volume of mature, merchantable timber with significant near-term income potential.

The property also features approximately one-quarter mile of frontage along scenic Rogers Creek, where its rocky creek bed and natural hardwood corridors provide beautiful scenery and excellent wildlife habitat. The combination of mature pine timber, hardwood forests, and reliable water resources creates favorable conditions for white-tailed deer, wild turkey, and other native wildlife, making the property well-suited for hunting, outdoor recreation, and conservation.

The seller recently completed a boundary survey, providing additional confidence in the property's acreage and boundary locations. A copy of the survey is available upon request.

Rascob Road Retreat represents an exceptional opportunity to acquire a well-managed timberland investment with substantial near-term income potential, outstanding recreational attributes, and long-term conservation value in one of Moore County's most desirable rural settings.

The property is currently enrolled in the Moore County Present-Use Value (PUV) program for forestry, providing reduced property taxes. The buyer shall be responsible for any deferred or rollback taxes resulting from the property's disqualification from the program following the transfer of title.

PROPERTY FEATURES:

- Road Frontage
- Timber Investment
- Conservation Potential
- Marketable Timber Value
- Substantial Creek Frontage
- Secluded Setting with Accessibility
