PROPERTY DESCRIPTION

Introducing one of the most premier farms to hit the market in Graham County, Kansas, 519 +/- acre legacy hunting property that has a proven history of producing top tier hunting experiences in Northwest Kansas! This is truly the ultimate sportsman's paradise and a rare opportunity to own a top-tier recreational property that showcases nearly everything this region has to offer. From the moment you step onto the farm, it is clear that this property serves as a central hub for wildlife in the area. Sand Creek winds through the entire tract which creates natural travel corridors that consistently attract and hold game. Multiple springs and live water sources further enhance the property! This farm is widely regarded as a mature buck factory and has been managed with age structure in mind! The area is known for very strong genetics, and the combination of exceptional bedding cover, thermal protection, and natural travel routes allows both whitetail and mule deer to reach older age classes. The topography is dynamic! There are multiple draws and canyons carving through the landscape creating textbook big game travel corridors. A diverse mix of mature cottonwoods along the creek bottom and thick cedar thickets throughout the property provides outstanding security cover and ideal ambush locations during the hunting seasons. Nearly every acre of this farm is huntable and offers some form of habitat or recreational value, whether it be creek-bottom pinch points, elevated canyon crossings, or secluded bedding pockets. The seclusion offered here is exceptional, allowing wildlife to thrive with minimal pressure! Beyond the incredible deer hunting, this premier farm delivers outstanding upland game and turkey hunting opportunities. The property supports exceptional populations of pheasant and quail, along with phenomenal Rio Grande turkey hunting thanks to strong roost habitat along the timbered creek corridor. Predator hunting opportunities further add to the year-round recreational appeal! The diversity of habitat ranging from native grasses and rolling terrain to live water and heavy timber creates the ultimate experience that is rarely found with a single contiguous tract in western Kansas! Nearly 200 +/- acres of the property could potentially be enrolled into CRP, offering future income opportunities while further enhancing habitat value. Although those acres are currently not enrolled, it provides flexibility for the next owner. Improvements include an electrical meter and water well onsite, adding convenience for future building or operational plans. Additionally, the sellers' mineral interests will convey with the sale. With live water, diverse topography, exceptional cover, strong wildlife numbers, and nearly every acre contributing to its overall habitat value, the Premier Sand Creek Hunting Farm stands out as one of the top hunting properties in Graham County. This is more than just a farm; it is a rare, turn-key opportunity to own a true Northwest Kansas hunting legacy property where mature bucks roam, coveys rise, and turkeys gobble in the spring! The property is located 17 +/- miles from Hill City, 53 +/- miles from Hays, and 147 +/- miles from Salina. All showings are by appointment only.
