Huston Ranch Woodson, TX / Throckmorton County

PROPERTY DESCRIPTION

Just 3.75 miles northwest of [Woodson, Texas](#), Huston Ranch spans 161.69 acres and offers a rare combination of recreation, cattle production, and income potential. This legacy ranch has been in the seller's family for over 100 years, carrying with it a strong history and heritage of Texas ranching. The land is richly wooded with mesquite, hackberry, chinaberry, and other desirable trees. Middle King's Creek meanders through the property, joined by additional water sources and a thick stand of native grasses that provide excellent forage for livestock and ideal habitat for wildlife. Established roads and trails extend throughout the ranch, offering easy access to all areas. Working pens are already in place, with electricity on-site and rural water available along County Road 334-making future improvements or a new homesite both convenient and cost-effective.

This ranch is equally attractive to hunters, ranchers, and investors. The diverse habitat supports thriving populations of whitetail deer, turkey, hogs, and other native game, while the water and grasses sustain a productive cattle operation. Oil and gas production equipment is concentrated on the northeast side, leaving most of the land natural and undisturbed. Most importantly, no wind turbines are in sight, preserving the wide-open views and scenic landscape.

Huston Ranch is also a proven income-producing property. The seller will convey his owned minerals, providing the buyer with ongoing oil and gas income. Additional revenue comes from existing hunting and grazing leases, creating multiple income streams from day one. A current survey of the property is available.

Whether seeking a private hunting retreat, a working cattle ranch, or a land investment with built-in income potential, Huston Ranch represents a rare and valuable opportunity in Throckmorton County.
