**PROPERTY DESCRIPTION**

If you've been searching for a manageable hunting property with income-producing farmland, this 80+/- acre tract in Barber County deserves a look! The rolling terrain creates excellent wildlife habitat while offering a diverse mix of thick cover, native grass, and productive tillable ground. Approximately 40+/- acres are currently planted in soybeans, providing both annual income potential and a dependable food source for local wildlife. The remaining acreage is ideal for recreation, featuring roughly 20+/- acres of dense timber, buck brush, and tall native grasses that offer outstanding bedding cover. Massive cottonwood trees line portions of the property, adding character while creating excellent travel corridors for whitetails. Another 20+/- acres consist of native grasses with scattered cedar trees and timber pockets, creating natural transitions that deer and upland birds frequently use. During the property visit, several whitetails were seen, along with quail and dove, showcasing the recreational opportunities this tract has to offer. Two tower blinds and one feeder are already in place, allowing the next owner to step right into hunting season with much of the work already done. Whether you're looking for a weekend hunting property, a place to introduce family and friends to the outdoors, or an investment that combines recreational appeal with productive farmland, this Barber County tract offers an excellent balance of both. Conveniently located approximately 20+/- miles southeast of Medicine Lodge, 20+/- miles west of Anthony, 34+/- miles southwest of Harper, and 80+/- miles southwest of Wichita, this property provides the privacy buyers are looking for while remaining within an easy drive of surrounding communities. All showings are by appointment only. If you would like more information or would like to schedule a private viewing please contact Jacob Lemons at [\(620\) 501-3688](tel:6205013688).
