MORE ABOUT THE PANOLA 251

The land itself is truly impressive, hosting miles of developed and well-maintained internal roads that provide easy access throughout the entire tract. Four large, established food plots are already planted and strategically placed in prime areas. Seven hard-sided blinds overlook the plots and travel corridors, all positioned to offer excellent visibility and access no matter the wind direction.

The Panola 251 is covered in mature hardwood timber, providing both natural beauty and outstanding wildlife habitat. Two ponds are on the property, one near the entrance that's been cleared for easy fishing access and stocked with crappie, perfect for family outings. In the northwest corner, four gas lines cross the landscape, creating ideal food plots and blind locations that consistently attract deer and turkey as they travel.
