MORE ABOUT THE HINDS 417.616

For equipment and storage, the property includes a 60' x 40' equipment shed, providing plenty of room for tractors, ATVs, boats, and other recreational equipment. An additional old barn offers even more enclosed storage.

If you are familiar with Mississippi hunting, you know the reputation of the Big Black River bottom. The rich, fertile soils, hardwood bottoms, big ridges, abundant cover, and large blocks of contiguous timber create exceptional wildlife habitat. The Hinds 417 features more than 6,000 feet of frontage along the east side of the Big Black River, giving the property a tremendous natural resource and recreational component. Another unique benefit is that less than 30% of the property is located within the FEMA flood zone, allowing the majority of the tract to remain accessible and usable even during periods of high water.

The hunting setup is well established, with miles of internal roads leading to large wildlife plots, many of which are equipped with Redneck blinds and feeders. The timber was select cut approximately four years ago, creating an abundance of young growth and thick cover that should provide outstanding wildlife habitat for years to come. There are also pockets of older, mature timber scattered throughout, creating excellent locations for bowhunters looking to hunt transitions between thickets, fields, and food sources. Deer numbers along the Big Black River bottom are strong, and the combination of cover, food, and water provides the ingredients for an exceptional deer hunting property.

MORE ABOUT THE HINDS 417.616

Spring and summer bring another special feature to the Hinds 417: turkey hunting. From the back porch of the cypress camp, you can expect to hear turkeys gobbling throughout the spring. The current owners have improved the property by opening additional areas to create more strut zones while still maintaining plenty of cover for hens and poults. The result is a property designed to provide quality habitat throughout the year.

The fishing opportunities are equally impressive. As an owner of the Hinds 417, you will have shared ownership of a 12± acre trophy bass and bream lake that has been carefully managed over the years for quality fishing. The lake has produced bass exceeding 10 pounds, making it a tremendous recreational asset. In addition, the property includes exclusive ownership of a smaller body of water known as "The Catfish Pond." This pond has provided countless hours of enjoyment for the current owners, their children, and their grandchildren and is the perfect easy-access spot to fill the cooler for your fish fries.
