MORE ABOUT THE WINSTON 374

This property is a sportsman's dream. The diverse habitat includes some mature pine timber, hardwood creek bottoms, cypress swamps and recently cutover acreage already regenerating. These natural features provide outstanding bedding, browse, and roosting habitat — perfect for deer, turkey, and seasonal duck hunting. The cutover is already attracting whitetail, while open bottoms and creek crossings make ideal turkey strutting grounds. Multiple low-lying cypress swamps and wet-weather pockets add unique waterfowl opportunities you don't often find on a single property.

An established internal trail system winds through the property, offering excellent ATV/UTV access. Several spots with potential lake views make fantastic homesite or cabin locations, and power is available nearby, making it easy to build when you're ready.
