MORE ABOUT 214 DOGWOOD SPRINGS LANE

There is a feeling of rural living here; however, you are roughly six miles from Mena, the county seat of Polk County, where you will find restaurants, shops, art galleries, churches, retail stores, and more. Mena and Polk County have much to offer all the while maintaining a small-town feel.

The home was originally built in 2006 but has recent upgrades such as a new roof in 2022, a new water heater, and new paint and carpet in 2023. In addition to the garage, there is a separate 24' x 30' insulated workshop, two entrance doors, a bathroom, and cabinetry, all on a concrete slab, giving it the potential to be converted to additional living space or whatever you choose. Nearby is an established garden spot with its own 200 amp electric service. Currently, the home is on rural water, but a working well is also available. This, along with low-maintenance vinyl siding on the home, garage, and shop, and a propane tank plumbed to the home for gas wall heat, provides sustainable backup to other utilities. Established internet is available through Starlink.

An additional 5.56± acres across the road gives the owners room to roam, hunt, or explore and offers seclusion along with fantastic views of the woodlands.
