"<" Means Less Than the Reporting Limit. Not Detected at or above the Reporting Limit.

<sup>1</sup> Public Water System Maximum Contaminant Level.

<sup>2</sup> Public Water System Secondary Maximum Contaminant Level.

<sup>3</sup> Public Water System Action Level.

<sup>4</sup> Advisory Only (EPA).

<sup>5</sup> According to the Oregon DHS "Fact Sheet" on "Coliform Bacteria", "The presence of coliform bacteria in a water supply shows possible pollution that may contain disease causing organisms." "Therefore, safe water contains no total coliform bacteria."

Test results relate only to the parameters tested and to the samples as received by the laboratory.  
All analyses were performed according to the Analytical Laboratory & Consultants, Inc. Quality Assurance Program. All QA/QC requirements were met except as noted. For ORELAP accredited analytes (identified by "¥"), test results meet all requirements of NELAC except as noted.

No anomalies associated with the analysis of these sample(s) were observed.  
Note for pH by EPA 150.1: pH should be analyzed immediately following sample collection. If pH analysis was requested, the sample was analyzed on receipt in the laboratory.

Approved
