Enclosures: Standard Terms and Conditions, 3591 Aerial orientation.pdf, 3591 Plan page.pdf, pipe requirements.pdf, driveway handout.pdf,

SPECIAL REQUIREMENTS / STIPULATIONS

The Department has determined this proposed entrance be designated a 'Joint Entrance'. Therefore, the requestor is aware this entrance will not only serve as access for their parcel, but serve as a means for ingress/egress for the adjacent parcel. The entrance shall be placed in such a way to insure equal and joint use. Each party has equal rights and cannot prohibit or interfere with the other's usage.

Existing pipe needs to be replaced completely. DOT will supply pipe for the whole widening, but the applicant is required to do all work to replace the pipe.
