Lot Evaluation Approval/Septic Permit

Date: 7/30/2026 Owner: Marty & Mary Rovenstine

Evaluator: J. McBride & L. Fritz Address: 200 Bowman Loop

The address listed above is approved for a subsurface sewage disposal system with the following restrictions:

1. A copy of this document must be taken to the Madison County Building Department, in Madison County Court House; 1st Floor Room 100, prior to construction.
2. The Jackson-Madison County Health Department (JMCHD) must be contacted at the time the system is installed.
3. Any well on the property must be located a minimum of 50 feet away from the septic tank and lines.
4. Field lines must be installed 24 inches deep unless otherwise indicated on this form.
5. The system shall consist of a two compartment septic tank, holding 1000 gallons, with 250 linear feet of field line at 24-30 inches deep for 2 bedrooms.
6. Please see drawing below for area details:

- * Curtain drain required at 42" depth with suitable outlet
- * Maintain 25' setback from Creek to use as west side of curtain drain
- * Maintain 15'-25' setback between drain and field lines
- * Attached full page drawing has additional detail
- * Field line installation in Freeland

***The recipient of this permit agrees to construct or to have constructed the above described system in accordance with Jackson-Madison County Health Department Board of Health Regulations To Govern Subsurface Sewage Disposal System. If any part of the system is covered before being inspected and approved, it shall be uncovered by the recipient of the permit at the direction of JMCHD Environmental Personnel. Any cutting, filling, or alterations of the soil after this day may render the approval and permit null and void. * Call 731-234-9441 at least 24 hrs before installation

scr1 per scr1
map dated
6/12/2019
(Freeland
overwash)

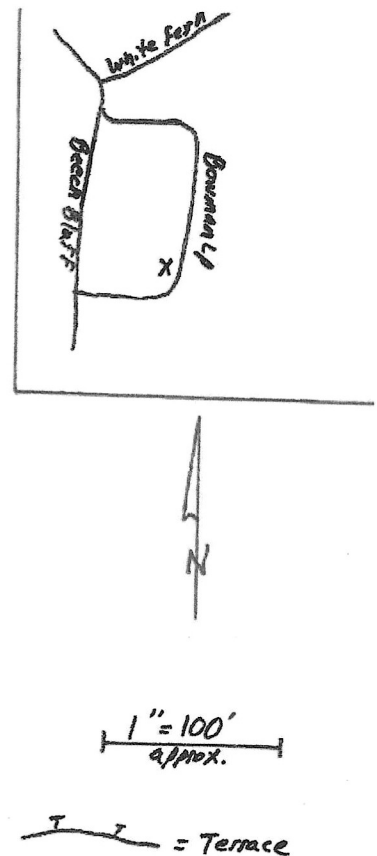

A Certificate of Completion will be received with a plat sketch after construction of the system is complete.
